## Detection Report

PETALING JAYA – An elephant, standing about one-storey-tall, made an unexpected appearance in Kota Tinggi, Johor.

In a 40-second video shared on the Kota Tinggi Hari Ini social media page, the elephant is seen strolling along the road, passing houses and waving its trunk as it goes by.

The origin of the elephant or how it ended up in the neighbourhood remains unknown, but

the caption indicated that the scene was recorded at 2.13am on Jan 27.

Internet users were quick to express concern for the large mammal, with many commenting on its apparent sadness.

“Pity. Maybe it recalled that the place once its habitat is now a neighbourhood,” wrote Instagram user lina77165.

Another user, mikeyessudas, said: “Jungles are destroyed to build factories and houses. Where are they to go? It’s not their fault.”

Date	Elephants Detected	Average Confidence	Location
2025-3-4	5	92%	Kota Tinggi, Johor
2025-3-3	8	96%	Kota Tinggi, Johor
